Summary

Passionate MERN Stack Developer skilled in building scalable, responsive web applications. Proficient in crafting robust RESTful APIs, optimizing NoSQL databases, and creating modular UI architectures. Adept at leveraging modern frontend frameworks and clean code design to build smooth, secure digital solutions.

Skills

Frontend Development: React.js, JavaScript (ES6+), Tailwind CSS, Bootstrap

Backend Development: Node.js, Express.js, RESTful APIs, MVC Architecture

Databases & Tools: MongoDB, Mongoose, Git, GitHub, Postman

Experience

Digichum Infotech LLP

April 2025 – July 2025

Frontend Developer Intern (3 Months)

Remote

- Worked in a collaborative team environment to learn industry-standard project development workflows.
- Acquired foundational frontend engineering skills and actively applied them to real-world team features.
- Learned to transform Figma layouts into responsive web interfaces alongside senior developers.
- Contributed to team codebase objectives by rapidly adapting to peer review suggestions and feedback.

Projects

Eventify | *React, Node.js, Express.js, MongoDB, Tailwind CSS, Nodemailer*

GitHub | [Live Demo](#)

- Developed a secure user authentication system managing registration and access control.
- Created dual-role dashboards enabling users to track events and admins to approve or delete bookings.
- Implemented an automated OTP verification layer via Nodemailer to secure the booking lifecycle.
- Integrated automated confirmation dispatches upon successful validation of user transactional data.

Wanderlust | *Node.js, Express.js, MongoDB, EJS, Bootstrap*

GitHub | [Live Demo](#)

- Developed a travel blogging platform with secure login features for sharing personal travel experiences.
- Created restricted routes ensuring users can only edit or delete their own custom listings and posts.
- Implemented authenticated review systems allowing only authorized users to post or remove feedback.
- Built comprehensive error handling mechanisms to safeguard application stability during runtime.

Tasty Tadka | *React.js, JavaScript (ES6), Tailwind CSS, HTML5/CSS3*

GitHub | [Live Demo](#)

- Developed a responsive frontend food application dedicated to menu exploration and table bookings.
- Created a dynamic menu catalog framework with real-time filtration based on food categories.
- Implemented an interactive table reservation interface to capture user booking details smoothly.
- Designed a clean, modern user experience using Tailwind utility classes optimized for all viewports.

Awards & Certifications

Frontend Developer Intern | *Digichum Infotech LLP*

Apr 2025 – Jul 2025 (3 Months)

Education

Bachelor of Computer Science

Graduated: 2025

SAGE University Indore

Indore, MP
